League of Conservation Voters Action Fund Endorses Abigail Spanberger

RICHMOND, VA — The League of Conservation Voters (LCV) Action Fund, which works to elect candidates who support sound environmental policies, announced today its full endorsement of Abigail Spanberger's candidacy for the U.S House of Representatives in Virginia's 7th District.

"LCV Action Fund is excited to endorse Abigail Spanberger because she is committed to supporting Virginia's growing clean energy economy," said LCV Action Fund Senior Vice President of Government Affairs Tiernan Sittenfeld. "Her decades of service to our country and national security expertise will be invaluable in Congress as she tackles the threats posed by climate change and pollution."

Protecting the environment is one of Spanberger's key platform issues, and she was quick to express her gratitude to the LCV for their support.

"It's a tremendous honor to have earned the endorsement of the League of Conservation Voters Action Fund," said Spanberger. "I've long admired LCV's dedication to protecting the environment through public advocacy. Climate change presents an ever-growing threat to our economy, our national security, and our way of life, and we're long past due for a representative who not only acknowledges this fact but is committed to addressing it. I will be that representative."

Added Spanberger, "For too long, we've put aside the long-term health of our ecosystem in the name of short-term profit. It's imperative that our lawmakers take action now to establish rigorous standards for environmental responsibility, and do everything in our power to slow and ultimately reverse the effects of climate change."

The LCV joins a growing list of national progressive advocacy groups who've spoken out in support of Spanberger, including [End Citizens United](#), [EMILY's List](#), and [NARAL Pro-Choice America](#).

Abigail Spanberger is a proud Democrat and former CIA officer running for Congress against Dave Brat in Virginia's 7th Congressional District.
